> Under its projected goals, the new Arab Tourism Organisation (ATO) will work to develop and encourage tourism on the pan-Arab and national levels in the Arab World. But to achieve that goal, the ATO will have to take a number of actions that all call for the creation of a unified Arab tourism strategy -- which is absent at present.

> The ATO's plan of action also calls for more research and studies to be used as a basis for any future tourism policy in the Arab World. It provides for enhancing the level of tourism training in the Arab World, as well as for catching up with the late and most up-to-date trends in tourism.

Another outstanding difference between the ATU and the ATO is that under the new arrangement the private sector will have the chance to play a major role in tourism development. "The private sector is an important part of tourism development, and while it is excluded from ATU activities, it will be given special attention in the plans of the ATO," Dr. Abu. Rabah said.

But while the new organisation plans to launch its own programmes, it will not start completely from scratch. Dr. Abu Rabah said that the achievements of the ATU would be used as a basis for all action to be undertaken by the ATO.

The ATO will continue to sponsor Arab tourism conferences. which will however be expanded to include Arab ministers of related areas such as information. culture and transport.

The ATO will also carry on the establishment of the Arab hotel training institute and the tourism information fund, as well as the Arab unions for tourist guides. writers and restaurant owners.

With regard to touristic services and facilities, the ATO will follow up on resolutions taken by previous Arab tourism conferences, it will also set up a special committee to examine the viability of those decisions, and obstacles in the way of their implementation.

Unified policy

In development and investment, the ATO will adopt a unified Arab tourism policy to develop the industry in Arab states. It will also conduct studies and research on the present tourism

well as some on common marketing opportunities. It also provides for specialised studies on varieties of tourism in the Arab World, in cooperation with Arab

in the region.

The plan also urges the establishment of transportation and communication systems in the Arab World to facilitate mobility of tourists and the flow of information.

In the field of training, the ATO plan calls for expanding existing training centres as well as holding seminars and workshops for trainces in the tourism industry.

Tourism 'common market'

"The ATO will also make a unique contribution to tourism in the Arab World in the form of the Arah Common Tourism Market (ACTM)," Dr. Abu Rabah said. He added that all Arab League member states are welcome to join the ACTM, and non-niember states may conclude agreements with the market.

The market would be run by a higher council comprising Arab ninisters of tourism in member countries. It will draw up and implement the Arah tourism strategy. take decisions to activate the tourism industry and a. hitrate in all conflicts pertaining to the implementation of the ACTM agrecment.

The technical apparatus of the ACTM would include a Tourism Information Fund, a central touristie planning system, an Arab centre for tourism studies, an Arab tourism development fund and an Arab tourism and hotel training institute.

"The objectives and activities of tourism in the Arab countries differ fundamentally in comparison with other areas of the world," Dr. Abu Rabah said, Tourism in the Arab World aims at satisfying the basic needs of the Arab people and simultaneously raising their cconomical, social and cultural standards, he said.

A compact study of Arab tourist traffic by the ATU indicates that Arab tourists account for 40 to 60 per cent of the total tourist traffic in the eastern / rab countries. Such Arab tourism, however, constitutes only 10 per cent of tourism in North African Arab countries.

The study also showed that scheduled air flights are the major means of transport used by Arab and foreign tourists; charter flights are negligible. The study went on to identify some weaknesses in the facilities and services offered to Arab tourists in the eastern Arab countries, particularly accommodation; services needed by visitors such as businessmen, groups, social visitors and students; sports facilities and health services.

The study also found a weakness in the tourism activity structure on the official level, and in private tourism enterprises.

Working on settlements:

AFTER THE OCCUPATION of the West Bank

and Gaza Strip by Israel in 1967, many Pal-

the occupied territories. According to the Thi-

This phenomenon has put both workers and

unions in a perplexing and conflicting situation.

Arab committee on Lebanon meets

BEIRUT, July 3(R) - The foreign ministers of Lebanon, Syria, Saudi Arabia and Fuwait, and Arab League Secretary-General Chedli Klibi, who form an Arab peace committee on Lebanon, will meet in the mountain resort of Beiteddin, southeast of Beirut, tomorrow. Lebanese President Elias Sarkis will chair the meeting.

The first tangible result came three days ago, when committee negotiators put into effect an accord to end clashes in Zahle between Syrian peacekeeping troops besieging the town and right-wing Falangisi militiamen holding it.

Countries with observer status Afghanistan, Angola, Eth-Laos, Mozambique and South Yemen - were excluded from the talks.

Today's round is to coordinate both the one-year and the fiveyear plans through Comecon. but Poland, one of its largest memand faces a 14 per cent decline in national income this year.

Polish Prime Minister Woiciech Jaruzelski indirectly appealed to his Comecon partners vesterday for more economic aid to help Poland in its struggle against the enemies of socialism.

"We place great hopes in this congress, which should contribute to resolving the crisis of the party and the state and stabilise the political, social and economic situation," Mr. Jaruzelski said.

He then left for home, leaving Deputy Prime Minister Mieczyslaw Jagielski, Warsaw's main negotiator with the Solidarity free trade union last August, to seek an agreement with the rest of Com-

WASHINGTON, July 3 (R) - swell the labour force, a phenomenon the government compensates for by adjusting its figures accordingly.

> In June, the number of young people searching for work was only about half what it has been in the past, so seasonal adjustments had an exaggerated effect, giving the appearance of a hig drop in the unemployment rate.

> ·Without the benefit of the government's adjustments, the rate would have jumped to 7.7 per cent from 7.1 per cent in May.

ECONOMIC NEWS BRIEFS

Hotel workers in Cyprus threaten to strike

NICOSIA, July 3 (R) — Hotel workers in Cyprus have thrcatened to strike on July 10 unless an agreement is reached on their demands which include a 40-hour week- and an extra month's bonus salary.

The hotel workers unions said three long meetings with the hoteliers, with the active participation of labour ministry officials,

had failed to resolve the differences.

The unions estimated that 5,000 hotel workers would back the strike, coming at the height of the tourist season.

Cyprus expects about 400,000 foreign visitors this year.

Burundi gets \$5m EEC loan

LUXEMBOURG, July 3 (A.P.) — The European Investment Bank (EIB) bas lent Burundi a low-interest loan of \$5.08 million towards the construction costs of a glassware plant in Bujumbura,

the capital of the Central African nation. The EIB, the European Community's long-term financing institution, said it is making the funds available in the form of two conditional loans. One of \$1.21 million to the Republic of Burundi for 25 years at two per cent interest, the other for \$3.8 million to Burundi's National Bank of Economic Development for 20 years at 3.5 per cent interest.

Total construction costs of the plant which will employ 170 workers have been estimated at some \$20.6 million the EIB said. The plant will have a production capacity of 8,000 tonnes of bottles and glass containers and is scheduled for completion in late

Japan's oil storage tanks full

TOKYO, July 3 (R) - Japan cannot accept Mexico's offer of a further 200,000 barrels a day (b/d) of crude oil hecause its storage tanks are full, Japanese International Trade Minister Rokusuke Tanaka said today.

He told a press conference that other reasons for declining Mexico's offer included the relatively high price of its heavy oil and reduced output of oil products in Japan.

But Mr. Tanaka said this did not mean that Japan would refuse

to increase imports from Mexico from the present 100,000 b/d at a

Oil companies in the United States, Canada and Western Europe have reduced their purchases of Mexican oil recently because of the world glut.

The minister said he explained the problems to Mexico's Ambassador. Francisco Javier Alejo Lopez, at a meeting here yesterday at which the envoy asked Japan to take prompt delivery of the additional oil.

New technique to treat oil slicks

LONDON, July 3 (R) — Oil slicks threatening coastlines and wildlife could in future he turned into wads of rubber and scooped up in nets thanks to a technique being developed in Britain. Scientists with British Petroleum (BP) say they bave successfully treated all kinds of oil in this way and hope the treatment could be widely available by the end of next year.

The technique involves spraying the oil slick with an artificial liquid rubber chemical and a curing agent which together dissolve the oil and form a sponge.

British oil company loses £1b claim

LONDON, July 3 (R) - The British Oil Company Burman today lost a claim in the London High Court for one billion sterling (two billion dollars) compensation from the Bank of England over a rescue operation six years ago.

Burmah claimed the bank took unfair advantage of it when it bought Burmah's 20 per cent shareholding in the British Petrole un (BP) company.

The shares, bought by the bank for £179 million later increased more than six times in value.

The court rejected Burmah's claim that the deal was unfair and an unconditionable bargain.

In a lengthy judgment after a three-week hearing, the judge. Sir Raymond Walton, said that, but for the bank coming to the rescue. Burmah would have gone into liquidation and shareholders would have received nothing.

Burmah, which ran into a cash-flow problem after the sudden jump in oil prices in 1974 and the collapse of the oil tanker market later returned to financial stability.

prospects for Saudi price-cut campaign

News analysis by Andrew Hill

LONDON, July 3 (R) — Saudi Arabia's determined campaign to force other OPEC states to cut their oil prices could get results by the end of the year, Western oil industry analysts said.

Saudi Oil Minister Sheikh Ahmed Zaki Yamani underlined the Kingdom's resolve last Saturday by denying Western press reports of a cut in Saudi oil production.

In a telex to Reuters in Bahrain Sheikh Yamani said "no decision has been taken to cut production." the reports quoted oil industry sources as saying Riyadh would cut output by 450,000 barrels a day (h/d).

With an output of more than 10 million b/d Saudi Arabia has flooded the world oil market to push prices down and make other members of OPEC (the Organisation of Petroleum Exporting Countries) reduce what they cha-

Nigeria and Algeria, were now under the most immediate pressure to cut their official prices, the highest in OPEC.

Oil companies are now negotiating their contracts to take African oil for the third quarter of this year and most analysts expect them to be paying less, even if the price cut is done covertly by secret discounts.

Venezuela and Ecuador, both OPEC members, have already cut prices in response to the glut and non-OPEC Mexico, Britain and Norway have made four-dollar reductions.

It this happened attention would then focus on Gulf producers, with the exception of Saudi Arabia, which align their prices on a \$36 basis with premiums added for quality of the crude.

Oil industry sources believe Saudi Arabia would be prepared to raise its price to \$34 a barrel if others came down to its level.

The sources said they believe Kuwait has complained to Saudi Arabia recently that it is losing revenue because, like a majority of OPEC states, it decided to cut production in May.

OPEC output in 1980 was 30 million b/d while demand in the communist world that year was estimated by the International Energy Agency at 50 million b/d and is expected to fall to 47.8 million b/d this year.

FIFA's secretary-general retires

ZURICH, July 3 (R) - The International Football Federation (F-IFA) yesterday praised retiring secretary-general Helmut Kaeser for 20 years of efficient and honest work' but made no reference to his statement yesterday that he resigned following differences with FIFA president Joao Havelange.

Sources said the two men had differed over sponsorship of the 1982 World Cup. After FIFA's executive met in Madrid lass May and heard a special report from the president, a senior FIFA official said Dr. Kaeser, 68, been 'invited to accept retirement.'

The FIFA statement said Dr. Kaeser had stepped down 'further to an amicable arrangement whereby FIFA respects all the obligations taken towards Dr. Kaeser, FIFA renders homage to the efficient and honest work achieved by Dr. Kaeser... thereby making an important contribution to the development of world football."

Hinault extends his lead

NANTES, France, July 3 (R) - Frenchman Bernard Hinault, hidding for his third victory in four years in the Tour de France cycle race, stretched his lead today at the end of the ninth stage.

The stage was won by Aadrien Wijnands of the Netherlands in a sprint finish but with the help of intermediate bonuses Hinault picked up another four seconds off his closest challenger. Philip Anderson of Australia, who now trails by 37 seconds.

The riders have their first rest day tomorrow in Nantes before setting off on Sunday on the 194-kilometre tenth stage to Le Mans. Today's run from Rochefort-Sur-Mer 10 this Brittany city was expected to provide the competitors with a relaxing ride up the west

Instead they cracked on the pace, covering the 180 kilometres at an average speed of over 40 kilometres an hour.

There are many beneficial aspects of this rule, but not when it comes to slow play. Slow players can be a bane. At a tournament, you can ask the director to hurry no an excessively slow pair, but in private pley it is much more difficult. There is nothing in the Laws to cover slow play. The only thing to do is to approach the guilty party and tell him that he is ruining other people's enjoyment of the game. Q. - What made you take up bridge, and how did you become so good?-R. Brennan. Boston, Mass.

A .- I was introduced to bridge by accident. Many years ago, while I had some free time on e movie set. I came across a Goren pointcount book and started reading it. The game fascinated me, so I became addicted. I played with better players and read avidly about the game. With experience I became a better player and was able to persuade stronger players to be my partners. Naturally I learned a great deal from these experts, especially in the heat of battle.

So I became a bridge player by a stroke of fortune. if, instead of a Goren book lying there, it had been a Kinsey sex study, imagine what I would have become!

Poland drops ministers; biggest New Filipino premier shake-up since Feb. 1980

WARSAW, July 3 (Agencies) — Polish Prime Minister Wojciech Jaruzelski today announced a major government shake-up after parliament had approved the reorganisation of several key government min-

Addressing a session of the Sejm (parliament) called to consider the country's desperate economic plight. Gen. Jaruzelski announced he was dropping eight ministers, appointing five new ones and moving four others.

Earlier the Sejm had approved the merger of the agriculture and food, energy and mining. light and chemical and metallurgy and machine industries.

The foreign trade and maritime ministry was separated, reflecting a new emphasis on exports. It is Poland's biggest gov-

emment shake-up since last February, when Gen. Jaruzelski came to power. Then, four ministers were dropped and two deputy premiers reassigned.

Mr. Ryszard Karski stays on in foreign trade, while Stanislaw Bejger takes over the new maritime board.

Army General Czeslaw Piotrowski is named as head of the new super-ministry of mining and power, replacing Mr. Zbigniew Bartosiewicz and Mr. Mieczyslaw Glanowski, ministers of energy and mining respectively.

In the new chemical and light industry ministry Mr. Jan Knapik comes in to replace Messrs. Wladyslaw Jablonski and Kazimierz Klek. Mr. Jerzy Wojtecki, previously agriculture minister, takes over the food portfolio as well.

Mr. Zhigniew Szalajda, previously metallurgy minister, takes on the machine sector. Out go Mr. Henrzk Gawronski and Heavy Industry Minister Stanislaw Wyl-

As Poland prepared to receive Soviet Foreign Minister Andrei Gromyko today, the official press reported that five youths had been arrested for defacing Soviet war memorials.

The Warsaw paper Kurier Polski reported that two of those detained were members of the independent trade union Solidarity, which claims 10 million members. The five were reported to have been under the influence of alc-

The paper quoted a Solidarity spokesman as deploring that union members were involved. He recalled that Solidarity had repeatedly condemned attacks on Soviet war memorials and demanded that the culprits be severely punished.

In Bydgoszcz, north-west of Warsaw, PAP reported that the authorities had extended their investigation into an incident in the town on March 19 when Solidarity charged that three of its members were beaten up by unidentified assailants.

PAP reported that lawyers acting for the victims had presented more documents.

The union staged a nationwide warning strike and threatened to bring the whole country to a standstill unless those responsible for the attack were punished.

Soviet, Polish troops worry over Poland

MOSCOW, July 3 (A.P.) -- Sovand rouse troops at a joint tac tical exercise have expressed alarm about the political situation in Poland, the defence ministry newspaper Krasnaya Zvezda (Red Star) said today.

The most urgent theme of (soldiers') conversations these days a profound concern about the situation in Poland," the newspaper said.

"They quickly attacked the 'enemy' and the front-line defenses were broken. But fartber behind there was a heavily defended region and they decided to block one of the hills with two infantry units while the others kept attacking," is said.

The article did not specify where the exercise was held, but reports from Poland spoke of joint training in both the northern and southern regions of the country over the last week.

Despite concern in the ranks about Polish unrest, Krasnaya Zvezda said, "hope is also expressed that the Polish Communists will be able to unite their ranks."

Gas explosion rocks Barcelona

Meanwhile, the trial of four anti-Communists charged with plotting the violent overthrow of the Polish state continued today. and the leader of the four Mr. Leszek Moczulski disputed reports that he and his subordinates had 'grenades in our pockets."

Mr. Leszek Moczulski, 51. leader of the staunchly anti-Communist "Confederation of Independent Poland" (KPN), said such accusations were made in some Polish media and added. "we only have in our hearts the love of our motherland."

The trial, the first political proceeding since last summer's strikes launched Solidarity and produced an accord that no one should be held by the authorities for their political beliefs, resumed yesterday after a two-week recess.

The proceeding have begun from the very beginning again since the court announced yesterday that the initial presiding judge had fallen ill.

The new judge, Mr. Janusz Jankowski, had yet to decide today on a motion by prosecuting attorneys calling for the arrest of Mr. Moczulski and his three subordinates. They were accused of attending at least three political rallies since they were released June 5 from pre-trial detention and ordered to

refrain from such activity.

As he did yesterday, Mr. Moczulski spoke at length about his activities in Robcio, a small human rights organisation here.

Rev. Paisley, whose Democratic Unionist Party ran a close second to the more moderate official unionists in recent municipal elections, also vowed to torpedo a cautious new British proposal to give the Catholics a say in running the province.

The 55-year-old pastor of the Belfast Free Presbytcrian Church told a rally of cheering supporters last night that his army of "Protestants united in defence of their homes and heritage" would act to "root out terrorists." "Shall we allow ourselves to be

killed and murdered by the IRA, or shall we go out to kill the killers? That is the solemn choice." Rev. Paisley declared. In a show of surength, he mar-

ched 2,000 men in military formation in a pouring rain through a valley to the village of Six-Mile cross, in County Tyrone 96 kilometres west of Belfast.

There are already armed Protestant organisations in Northern Ireland, both legal and illegal, but for another.

"If we are going to have the situation continuing where people are being murdered, then our people have got to do something about it." he said. "They can only do it if they are properly disciplined and ordered."

At least 2,123 people have been killed in 12 years of sectarian warfare in Northern Ireland, a British province with a million Protestants and half a million Catholics. The 1RA is fighting to take the province out of the United Kingdom and unite it with the irish Republic, which has about 3 million Catholics and about 125.000 Protestants.

The British government put Northern Ireland under its direct rule in 1972, ousting the local Protestant government because of the violence. Attempts since then to establish a system of selfgovernment in which the Catholic minority would be guaranteed a share of power have been wrecked hy Protestant opposition.

Northern Ireland, Mr. Humphrey Atkins, announced another such attempt yesterday. He said the government proposes to create a 50-member, non-sectarian Northern Irish council to advise him

Rev. Paisley said there was need on running the province. He said in would have no legislative authority but would be the first step toward restoration of local political authority.

"If he should set up this body, our purpose would be to bring it to a speedy end." said Rev. Paisley. Mr. Atkins' proposal received a

cautious welcome from moderate Catholic political leader Mr. Gerry Fitt. But Sinn Fein, the legal political front for the outlawed IRA, said it was "no solution".

Meanwhile supporters of the cight failed IRA men on hunger strike in the Maze prison near Belfast said that a chaplain gave the last rites yesterday to Joseph McDannell, and "It is almost the point of no return.

Mr. McDonnell, 30, was in the 56th day of his fast today. His wife said his weight had dropped from 95 kilogrammes to 51.

Labour's views

Meanwhile in London, in a major policy switch, the hpp-Britain's Cahinet secretary for osnion Labour Party is urging endorsement of a proposal ntually reunite Northern Ireland with the Irish Republic.

Labour Leader Michael Fool said teunification of the Protestant-majority British province with the Roman Catholicmajority Republic was a longterm goal that "can only be done by methods of persuasion."

The proposal was set forth in a 29-page document agreed this week by the party's Northern Ireland study group. It is due to be debated by labour's national executive committee july 22.

if eodorsed by the committee, the proposal would probably then reach the agenda of the party's annual coovention this fall, where approval would make it part of the party ticket for the next British general election, scheduled in early 1984.

If carried out, the proposal would end bipartisan policies on Northern Ireland with the ruling Conservatives.

Until now, both Labour and the small Scottish Nationalist Party have endorsed the view that the province remain British as long as that is the wish of the majority of its 1.5 million people, two-thirds of whom are Protestants generally opposed to being merged with the. Catholic south.

Mr. Foot said in a radio interview Wednesday he favoured seeking a united Ireland, but added that British troops will have to remain in the province for the forseeable future. He said it is important for both the British and Irish Republic governments to calm the fears of the Protestant majority in the North.

Brandt's visit -- 'useful'

Brandt says Soviets ready for arms talks

MUNICH, July 3 (A.P.) — Former chancellor Willy Brandt has returned from a four-day visit to Moscow saving he was convinced of Soviet President Leonid I. Brezhnev's peaceful intentions and his desire to negotiate East-West problems with the United States.

Mr. Brandt, chairman of Chancellor Helmut Schmidt's Social Democratic Party, characterised his visit as "useful" and said he felt the Soviets would "hring something into" new arms control talks with the U.S. Mr. Hans-Juergen Wischnewski, deputy SPD chairmao who made the trip with Mr. Brandt, said today that the Soviets were ready to

halt the deployment of SS-20 nuclear missiles aimed at Western Europe when new talks on limiting such weapons begin with the U.S. However, the U.S. must agree not to deploy medium-range missiles in Europe during the time. Mr. Wischnewski told reporters. NATO plans call for stationing new Cruise and Pershing II missiles in Western Europe beginning in 1983 to counter the Soviet SS-20

Lord Carrington flies to Moscow to explain the EEC plan on Sunday, and will speed most of Monday in talks with Soviet Foreign Minister Andrei Gromyko, officials said.

The Soviet Union's intervention in Afghanistan, where it has kept \$5,000 troops fot 18 ned by what the EEC called "rep-

months, has seriously strained East-West relations.

The plan envisages an intemational conference in two stages by October or November, at a venue yet to be decided.

In the first stage, the five permanent members of the United Nations Security Council-Britain, China, France, the Soviet Union, and the United States-and Afghanistan's neighbours India, Iran and Pakistan, would try to work out safeguards for Afghanistan's security as an independent Non-aligned state. The second stage would be joiresentatives of the Afghan people" to discuss Afghanistan's future status and guarantees for its future independence.

The European formula does not specify whether. Afghanistan's representatives would include the Soviet-backed government of President Babrak Karmal or the rehels, includiog feudal tribesmen, Islamic fundamentalists and disaffected Marxists who are fighting him.

British officials refused to clarify this aspect of the EEC plan. arguing that it had been kept deliberately vague. They admitted this might cause difficulties.

Britain hopes that if the con-ference goes ahead its first stage will engender sufficient momentum :c propel forward the more problematical second stage, the officials said.

But they are not expecting quick agreement to the plan from the Soviet Union. "It would be wildly optimistic to

think that the Russians would say yes to the proposals at this stage." one official commented. "We do not expect them to eit-

her accept or reject the plan at present." The proposed conference

would review the Soviet Union's

argument that its troops went into Afghanistan in December 1979 at the Kabul government's request because of external threats.

British Prime Minister Margaret Thatcher and her foreign secretary have been among the sternest critics of the Soviet Union's intervention in Afghanistan, and relations between

the two countries have been cold. "The fact that Russians are going to receive Lord Carrington is significant in itself," one official
